this volume investigates the diverse applications and conceptions of the term the golden age the phrase resonates with the theme of nostalgia which is popularly understood as a wistful longing for the past but which also denotes homesickness and the unrecoverability of the past while the term golden age typically conjures up idealised visions of the past and gestures forward to utopian visions of future golden ages the idea of nostalgia is suggestive of a discontented present the golden age and nostalgia are therefore related ideas but are also partly in conflict with one another as many nostalgic sentiments are not idealised and may indeed be dark ironic or self aware there are of course many other ways to characterise the relationship between the golden age and nostalgia and the tension between the two can produce myths and romantic idylls or in religious terms images of pre lapsarian innocence or dogmas relating to values associated with childhood the golden age is also often used to refer to specific respected periods of cultural production in all kinds of literature and visual media indeed nearly every period genre nation and cultural form has some kind of mythic often illusory golden age against which it is defined and in which nostalgia often plays a part this collection interrogates the notion of the golden age and its connection to feelings of nostalgia from a range of interdisciplinary perspectives with a strong focus on the relationship between word and image it will interest scholars working on the subject of the golden age nostalgia particularly in english literature film studies comics studies history and the fine arts

joshua noble focuses on the rapid appearance and disappearance in acts 2 and 4 of the motif that early believers hold all their property in common and argues that these descriptions function as allusions to the golden age myth noble suggests luke s claims that the believers had all things in common and that no one claimed private ownership of any possessions a motif that does not appear in any biblical source rather calls to mind greek and roman traditions that the earliest humans lived in utopian conditions when no one possessed any private property but all things were common by analyzing sources from greek latin jewish and christian traditions and reading acts 2 42 47 and 4 32 35 as golden age allusions noble illustrates how luke s use of the motif of common property is significant for understanding his attitude toward the roman empire noble suggests that luke s appeal to this myth accomplishes two things it characterizes the coming of the spirit as marking the beginning of a new age the start of a universal restoration that will find its completion at the second coming of christ and it creates a contrast between christ who has actually brought about this restoration and the emperors of rome who were serially credited with inaugurating a new golden age
